

Todd Hogenson
Director, Gas Programs Engineering
Pacific Gas and Electric Company

As Director of Gas Programs Engineering, Todd is responsible for providing leadership, and technical direction over the Pipeline Safety Enhancement Plan pipeline modernization and valve automation engineering programs, which includes program and project scope development, project cost estimating, cost forecasting and detailed engineering.

Before becoming Director of Gas Programs Engineering, Todd served as the Director of Gas Design & Planning, where he was responsible for overseeing Pipeline Engineering, Station Engineering, Transmission System Planning & Operations Support, and Gas Distribution Engineering & Planning. He has also served as Manager of Gas Transmission Pipeline Engineering, Director of Maintenance Optimization, Gas Facilities Engineer, and Environmental Engineer.

Todd holds a Bachelor of Science from the University of Minnesota in mechanical engineering.
