Subject: FW: CPUC 30-day MAOP Notification Report

Michelle, Julie,

I just wanted to give you a heads-up that we have reduced pressure today on Lines 300A and 300B in San Benito County due to class location review. We will be conducting hydrostatic testing and an MAOP validation. If successful, we will restore MAOP starting in 30 days (see notice below). We can discuss more during our meeting scheduled for Wednesday, but this differs from the restoration of Line 300B currently pending in the PD process.

Thanks and have a good weekend.
Shilpa

Subject: CPUC 30-day MAOP Notification Report

Dear Mr. Stepanian:

In accordance with General Order 112-E, Section 126.1, attached is a 30-day Maximum Allowable Operating Pressure (MAOP) Notification Report to increase the MAOP for Lines 300A and 300B outside the city of Hollister in San Benito County, California.

Please feel free to contact me with any questions.

Regards,

Frances Yee
