Subject: Topock Station Suction Piping

Michelle, Julie, Sunil,

As a follow-up to our meeting yesterday, we wanted to emphasize our availability to answer any questions you may have. Shall we get together via phone or in person this afternoon for further questions and feedback about what should be presented on Monday?

After our discussion on spike testing yesterday, we spoke with Redacted at Kiefner who does not recommend spike testing for certain situations, including station piping. He is available to answer any of your questions on Friday and is preparing documentation that we will share with you once it is complete.

Thanks again for meeting with us yesterday. Let us know what time works for you.

Shilpa
