Yes, I confirmed that can happen. Andrew Barnsdale is now working on it as of a few minutes ago, and knows this is an emergency.

Hi Brian:

Responding to your question, we need to start construction for the transmission facilities *no later than* the end of the month (9.30), so we would need the advice letter to be cleared in that same timeframe, i.e., no later than the end of the month.

Is that doable (I hope)?

Jeff
