I have already had that conversation with him. Julie Blunden was going to call Mike and I told him that would create a problem for everyone and that he should check in with me Wednesday morning. They won't go off the reservation.

Thanks. Please ask them not to go to Peevey and feel free to say there was an inadvertent error in handling this one. I believe this is an executive director resolution, so commissioner involvement will only likely cause panic and slow things down. I don't think we need this on the commission voting agenda. If somebody appeals it, then we would have to do that later. Thanks.

Julie

Hi Brian:

We are scheduled to close with DOE on the loan guarantee on Sept. 23rd. The DOE loan guarantee program expires on Sept. 30th.

There's a CPUC Biz Meeting scheduled for Sept. 22nd. Does this have to be taken care of at a PUC biz meeting, or can it be taken care of administratively?

I thought PG&E filed the advice letter in June. Wondering why it's still hanging out there?

Jeff

Greetings:

Brian. I have been informed that this must be done now or we cannot close on our DOE LG.

Can you call me as soon as you have a minute to discuss?

I think that we will need to go to Peevey to break the logjam, but don't want to do anything without your coordination, consent, etc.

Hi Brian:

Responding to your question, we need to start construction for the transmission facilities ***no later than*** the end of the month (9.30), so we would need the advice letter to be cleared in that same timeframe, i.e., no later than the end of the month.

Is that doable (I hope)?

Jeff
