Yes, will do, Brian.

Kirk – I'll reach out to you separately.

Thanks.

Shilpa

**Subject:** Information Request for Kirk Johnson

Brian -

To help me with a letter in response to San Francisco's threatened lawsuit, can you please have Kirk or somebody in gas operations provide me a description of the segments of Lines 132, 109 and/or 101 within the City and County of San Francisco? I am particularly interested in whether the segments of these three lines located within the City are downstream of the regulator stations where pressure is reduced. I also would like to get the MOPs and/or MAOPs for the San Francisco segments of all three lines.

My apologies if this duplicates other information requests you might have received from the CPUC, but I would really appreciate any information you can provide -- including schematic diagrams and maps.

Many thanks.

Frank
