Subject: RE: Status on CPUC Data Request from Frank Lindh (CPUC_182/Index 2069) and documents (hard copy) deliver to Frank Lindh's office

Redacted et al. -

Thank you very much for your response to my request. I received from Redacted an envelope with extensive information in response to my request. I really appreciate your prompt attention to this.

Frank

Subject: Status on CPUC Data Request from Frank Lindh (CPUC_182/Index 2069) and documents (hard copy) deliver to Frank Lindh's office

Frank,

We are working on your request below to Brian Cherry and expect to provide you with the response by tomorrow 9/16.

Enclosed are the documents (in hard copy) regarding information PG&E has previously provided to City Attorney's office and the Chief of San Francisco Fire Department. These documents will be delivered to your office this afternoon.

1) Letter from Kirk Johnson of PG&E to Joanne Hayes-White, Chief of San Francisco Fire Department, dated March 30, 2011 with attached documents;

2) PG&E's responses to ten questions (including a DVD to Q.7), dated July 14 and July 28, 2011 to City Attorney Herrera's June 30, 2011 information requests;

If you have any questions, please let me know.

Thanks,

Redacted

Subject: Information Request for Kirk Johnson

Brian -

To help me with a letter in response to San Francisco's threatened lawsuit, can you please have Kirk or somebody in gas operations provide me a description of the segments of Lines 132, 109 and/or 101 within the City and County of San Francisco? I am particularly interested in whether the segments of these three lines located within the City are downstream of the regulator stations where pressure is reduced. I also would like to get the MOPs and/or MAOPs for the San Francisco segments of all three lines.

My apologies if this duplicates other information requests you might have received from the CPUC, but I

would really appreciate any information you can provide -- including schematic diagrams and maps.

Many thanks.

Frank
