Importance: High

Here's the balance of what you asked for; this same spreadsheet was requested by and provided to the SF Fire Chief in March, and then by/to the San Francisco City Attorney's office in July. The hard copy of this is what was provided separately to Frank last week as well (see the other email string I forwarded to you earlier). So now you all have it. Let us know if you need anything else.  
Trina

Subject: Transmission level pipe in SF

It would be helpful if I had in hand tomorrow by 11:00 information that describes the transmission pipe in San Francisco boundaries, pressure level they operate at and size/vintage of them plus maps showing locations.  
This may have been provided previously to us but I can't put my finger on it.  
Possible?  
Michelle
