Brian,

First, I apologize for missing the time for our call. I had calendared 3:30 even though I said 3.

We have thought long and hard about the memo account issue today. We think it is unlikely that the commission will be able to issue a decision by the end of the year on these applications with so much money at stake so I don't think it is an inconvenience to ask for a reasonable amount of time to review the applications. The overall effect on timing for the decision will be minimal, so we can't support the memo account treatment for this.

I am available if you still want to talk.

Joe/David/Mark - could one of you get back to me via email or phone (973-4977) on this. We might be interested in agreeing to your extension if you would consent to the establishment of a memorandum account, effective January 1, 2012, to record costs that we would need to begin spending to meet some of our plans. We can debate the spend later, but this way we don't run into the retroactive ratemaking argument.
