Subject: RE: Roseville Gas Fire

Just fyi I had contacted Jennifer last night at 9:10 and she said she was looking into stuff but has basically gotten nothing. I did not ask the Aldyl A question then, but did this morning.

**Subject:** Roseville Gas Fire

We need to know as soon as we can this morning if it was the same kind of plastic pipe as Cupertino, and if there was a previous leak there. Brian and Trina, can you get us into the internal PG&E information flow on this?

**Subject:** PG&E gas leak

Sacramento news is carrying a story about a road on fire in Roseville from a PG&E natural gas leak. The video shots make it look like a fire in a glass fireplace -- very controlled burn up through the cracks in the street and PG&E and crews are just starting to jack hammer up the street to pinch of the pipes.

The news reporter indicated that this is at almost the same spot there was a leak last year.
