Subject: RE: Safety and Ratemaking

Erik will take the lead for PG&E. We have a few ideas we'd like to share.

Subject: Safety and Ratemaking

Hello,

As you may have heard, Paul Clanon has asked Angie Minkin and me to take on a special project related to reforming the way safety matters are considered in the Commission's ratemaking procedures and proceedings. This process is outside of any formal proceeding. We will be establishing a stakeholder process to discuss these issues, but we wanted to seek early input from some key stakeholders, particularly those who have substantial experience in these matters. Accordingly, we are planning for a workshop in early December and for now are informally meeting with some key stakeholders to gauge ideas and also get to learn new ideas.

We would like to have a joint meeting with both companies. We are open on any Tues/Wed/Thursday (except for Thursday, Sept 22nd). I can arrange a meeting in Room 5305 of the CPUC. We would like to have representatives of each company, specifically a few operations and a few regulatory folks. Please note that I'm only referring to this preliminary meeting with Angie and myself; the workshop notice will be sent out separately at a later time.

Please let us know if you can be available to meet with us (you can arrange a date that makes sense to both companies and then get back to me, if that is easier). For those in LA or SD we can always do video conference if travel is an issue.

Regards,

marzia
