This is a follow up meeting on the DR for IRR and DR integration with the wholesale market issues. <<110825CEORreport.pdf>>

I thought it would be productive to discuss issues related to the following:

1. From a higher level, PG&E's vision and plan on addressing the renewable integration needs (see attached CAISO's memo) in future DR program design --What needs to be done; when and how to get there.

2. Technical issues related to the CAISO rules on its wholesale DR products (PDR and RDRP)
