Subject: IPRP Report No. 2

Stu:

Attached is the Independent Peer Review Panel's second report entitled, "IPRP Report No.2" and dated September 7, 2011 regarding the IPRP's latest comments on PG&E's seismic imaging project for Diablo Canyon Power Plant.

We would like to meet with you again for an updated briefing in October or November. The IPRP welcomes feedback from PG&E on the comments and recommendations in the panel's report, which would be most helpful prior to our next meeting.

Eric Greene
