Commissioner--we will add this meeting to the log because the previously scheduled date isn't working for PG&E and we will need your agreement to put it back on the calendar.

Scott--please note on the old appt that the meeting will be rescheduled--tbd.

I've spoken to Sally this morning and advised that these dates are bad. I also advised her that the week of the 17th might open up depending on what happens with the Pasadena trip.
