2 employees will likely have a speaking role on the Panel. An additional approximately 5-8 PG&E employees plan to attend in the audience including communications/media.

Yes, we will notify CHP who has security responsibility for CPUC and coordinate with them. How many PGE employees will be attending? M

Mike-

On September 14th, PG&E and the other CA IOUs will participate in a Joint SmartMeter opt-out Workshop. Please see the below message from Josh Hart planning "mass protest and press conference." Will your Team coordinate with CPUC to ensure appropriate security measures are in place.

Thanks
Chonda

*****ALERT: MASS PROTEST/ PRESS CONFERENCE SEPT. 14 12:30PM*****

'OPT OUT' WORKSHOP ALL DAY 9:30AM- 5PM

CA PUBLIC UTILITIES COMMISSION 505 VAN NESS, SF

It's time to separate "smart" meter fact from "smart" meter fiction:

Myth: The utilities claim that smart meters are a fraction of the radiation levels of cell phones.

Fact: "Smart" Meter radiation is significantly stronger than from cell phones- see

<http://stopsmartmeters.org/2011/09/04/comparing-cell-phone-and-smart-meter-radiation/>

Myth: The CPUC defers to the FCC on maximum allowable wireless pulses.
The FCC claims that no “non-thermal” biological effects exist.

Fact: The National Institutes of Health (NIH) found chemical changes in the brain from cell phone exposure, a ‘smoking gun’ finding that demonstrates a clear non-thermal effect. See <http://well.blogs.nytimes.com/2011/02/22/cellphone-use-tied-to-changes-in-brain-activity/>

Myth: The utilities have been citing the World Health Organization (WHO) to justify the safety of their radiation emitting “smart” meters.

Fact: On May 31st, 2011 the WHO classified smart meter radiation as a Class 2B carcinogen. See http://www.iarc.fr/en/media-centre/pr/2011/pdfs/pr208_E.pdf (pdf) The utilities no longer refer to the WHO at all.

Myth: CPUC President Michael Peevey has been insulting electro-sensitive individuals, inferring that they are “just making it up”

or are “psychosomatic”

Fact: On Sept. 5th, the International Journal of Neuroscience reported that “EMF hypersensitivity can occur as a bona fide environmentally inducible neurological syndrome.” See

<http://www.ncbi.nlm.nih.gov/pubmed/21793784>

‘OPT OUT’ WORKSHOP ALL DAY 9:30AM- 5PM
CA PUBLIC UTILITIES COMMISSION 505 VAN NESS, SF

MASS PROTEST/ PRESS CONFERENCE SEPT. 14 12:30PM

Attend the all day "opt out" workshop, which will be held in the main auditorium at the CPUC- 505 Van Ness Ave. in San Francisco- starting at 9:30am until 5pm. Let's pack the chambers!

Join us during the lunch break at 12:30 to make some noise and protest this illegal opt out extortion plan.

Our demands:

-Charging a fee based on a medical condition is immoral not to mention illegal under CA Utility Code. Analog opt-outs must be at no cost.

-Communities retain the right to say NO to the ‘smart’ meter program.

-Pull the plug on the wireless mesh network. Period.
