Thanks Michael. I really appreciate the feedback. We'll wait for the mailing.

Hi Brian

I actually got a call from Redacted about this today, and here's what I told him (He's CC'd on this...) The first draft of the Scoping Memo did not make a lot of sense to me and asked for a lot of hoop jumping. The ALJ did a really great job re-writing it, and is asking some good questions that are more focused and the scope is significantly improved. Unfortunately, the delay in drafting was because of his hearing schedule and other resource constraints. I've informally signed off on the 2.0 draft (late last week) and it is making its way through internal review. It should (hopefully) mail this week.

- Michael

Michael - can you tell me if we will be seeing a scoping memo or anything regarding the reimbursement of CARB fees paid from ALJ Long in the near future ? Any insight you may have on this \$10 million issue would be appreciated.
