FYI. Not sure when the day will be but all the EE heavy weights are expected to be in attendance.

What do you guys think about inviting Ferron to the 20th anniversary of the PEC?

Steve:

Since Ralph Cavanagh was at the ACEEE conference this week - I took the opportunity to confirm he would attend and speak at the PEC 20th anniversary event. He said he would be there and he suggested we would invite Commr Ferron to speak at the event. He offered to call the Commr himself to invite, and he said he would help him prepare his comments. Although, we couldn't have our 20th anniversary planning discussion today - I felt Ralph's suggestion was important to have under your consideration.

Duane
