Subject: PG&E Tour Follow-up

Mike, Sepideh, Matthew, Marcelo and Elizabeth,

Thank you so much for taking the time from your busy schedules on September 23rd to meet with PG&E's senior officers. We really enjoyed the discussion and hope you found it useful.

Attached is some supplemental information to address several requests you made during the day. I've attached: 1) Nick Stavropoulos' "top 10" priorities for turning around the gas business, 2) a disaggregation (into CARE and non-CARE) of the historical disconnection data we provided, and 3) customer complaint statistics showing the portion of SmartMeter complaints that are related to RF and EMF concerns.

Sepideh, I also just put in the mail enlarged versions of the electric transmission and distribution maps included in the 9/23 presentation. I hope that's what you wanted. If not, let me know and I will dig up some different maps that meet your needs.

Best regards,

Erik
