Subject: Re: 09/29/11 [Redacted] reports the John Muir Elementary School in San Bruno
smell gas

Michelle,

Apparently what the San Bruno folks smelled at the school was the gas odorant which, of course, smells exactly like gas. There was no gas leak.

I believe a contractor for the hydro test or excavation work was told to put a gasket around the pipe in order that this not happen. I have contacted our operations folks and will forward report asap including what action PG&E took regarding the contractor.

Call me if you need
