Yes, she and I touched base on this yesterday.

Thanks!

Excellent. We are confirmed. See you then. Go ahead and send whatever questions you feel you need to send between now and then, to that same address. I do want to have a discussion about how to get you some information from prior requests, though -- since some of your staff are starting from essentially zero on this curve. I talked a bit w/ Michelle on this today, and we came up w/ some thoughts on that. Maybe between now and Friday next week you can discuss w/ her too.

Trina,
The morning of Friday, November 4, works for us. How about 10-11am, here at the CPUC? I've already got Room 4200 reserved. We'll have 6 people from DRA's gas team including me. They are working on the OIR as well as Aldyl-A discovery.

By the way, should we send questions regarding the hydro testing incident to the same email address you gave me earlier?

Ok, we can also suggest other dates but that one popped out as clearly open for everyone so I thought I'd give it a shot first. I'll wait to hear from you tomorrow.

Thanks, Trina! I'll get back to you tomorrow. A couple people show busy but I'd like to see if they can move their conflicting meetings.

How about next Friday, Nov 4th? Morning or afternoon both currently look pretty good. I would plan to bring over some of the key Reg Rel managers on pipeline safety issues, not attorneys or the gas operations/engineering folks. That work for you? And if you wanted to get out of the building we could do it here, or are happy to come over. How many will you have? Will 11/4 work for you?
Trina
