Dear Stakeholders,

The staff from the California Public Utilities (**CPUC**) and the California Energy Commission (**CEC**) are inviting you to join our two-day working meeting on developing the **Research and Technology (R&T) Action Plan** for the California Energy Efficiency Strategic Plan (CAEESP).

The meeting will be held in San Francisco on November 1st and November 2nd, 2011.

Please note the meeting will be held in **two different locations**:

- **Tuesday (Nov, 1st)** the meeting will be in **Milton Marks Conference Center in the Benicia Room**; and
- **Wednesday (Nov 2nd)** the meeting will be held at the **CPUC in the Auditorium**.

Please refer to the attached notice for information on the **meeting locations and remote attendance availability** as well as the two-day meeting agendas and additional background.

The purpose of this meeting is to facilitate information exchange and continue the development of the action plan for the Research and Technology (R&T) Chapter of the CEESP[1]. The meeting will build up on the work that was initiated during the first workshop on the R&T Action Plan that was held in July of 2011.

The R&T Action Plan will be designed to help California achieve the Zero Net Energy (ZNE) and hot-dry climate HVAC technologies goals described in the California Long-term Energy Efficiency Strategic Plan (CEESP):

1. Research and Development to achieve incremental improvement in existing integrated demand side management (IDSM) technologies and breakthrough in advancing new

and/or emerging I DSM technologies

2. Commercialization including demonstration, deployment and consumer acceptance to advance the market adoption of integrated DSM technologies

Meeting Structure
