Subject: RE: Updated PG&E Hydrostatic Test Schedule

Andrew- why doesn't the document include the column with affected plants? It had been included for a while at my request, but seems to have dropped off again. On the last one I printed with the generator column there was a Generation Impacts column between the Tie-In and Results column.

Thank you.

Michelle

Subject: Updated PG&E Hydrostatic Test Schedule

Team,

See attached the October 24th hydrostatic test program schedule. Please note that the data is considered confidential under Public Utility Code 583 since the detailed schedule contains sensitive non-public information about possible generator outages.

As a reminder, the schedule is reviewed and refined on a daily basis. Please let me know if you have any questions.

Thanks,

Andrew
