This is one of the ones that was a President Peevey to Tom Bottorff communication. As of now we aren't doing analogs.

Stay tuned – if it is available on YouTube, I will be sending a clip that a Santa Cruz constituent filmed of PG&E (itself, not the Wellington Company, its agent) replacing her SmartMeter with an old PG&E analog meter (not a SmartMeter with the radio turned off), after she went to a monthly CPUC meeting and spoke during the 3 minute public comment portion asking that her meter be replaced due to her health concerns.

These inconsistencies are creating havoc in Santa Cruz! It will be a nightmare when this goes viral.
