

**PACIFIC GAS AND ELECTRIC COMPANY  
San Bruno GT Line Rupture Investigation  
Data Response**

PG&E Data Request No.:	CPUC_205-01		
PG&E File Name:	SanBrunoGT-LineRuptureInvestigation_DR_CPUC_205-Q01SUP		
Request Date:	October 11, 2011	Requester DR No.:	
Date Sent:	October 14, 2011	Requesting Party:	CPUC (CPSD)
		Requester:	Michelle Cooke

**QUESTION 1**

Is it possible to get a list of planned hydrotests, MAOP digs, or any other inspections/activities related to gas pipelines that will be occurring within San Mateo County over the next six months by Thursday? What is your local government contact plan to keep communities abreast of activity in the areas?

Can we also get a list of activities (hydrotests, MAOP digs, inspections, leak surveys/patrols, replacements, etc.) related to gas pipelines in San Mateo County over the last 10 years? This may not be feasible by Thursday, but at least give me a ballpark timing (and it should not be past next week) by Thursday.

**ANSWER 1 – SUPPLEMENT**

PG&E inadvertently did not address one of the questions in its response to SanBrunoGT-LineRuptureInvestigation\_DR\_CPUC\_205-Q01 submitted on October 13, 2011. Our response to this question is provided in this Supplement.

PG&E's plans to keep communities in San Mateo County abreast of activity in the area are:

- Meet monthly with the Executive Director of City / County Association of Governments for San Mateo County (C/CAG), Richard Napier. C/CAG member agencies include:
  - Atherton
  - Belmont
  - Brisbane
  - Burlingame
  - Colma
  - Daly City
  - East Palo Alto
  - Foster City
  - Half Moon Bay
  - Hillsborough
  - Menlo Park
  - Millbrae

- Pacifica
  - Portola Valley
  - Redwood City
  - San Bruno
  - San Carlos
  - San Mateo
  - San Mateo County
  - South San Francisco
  - Woodside
- On Oct 4th, PG&E launched a countywide electronic newsletter distributed to all elected and department heads. Monthly distribution going forward.
  - Meet regularly (monthly in some cases weekly) with individual cities and County. We target City Managers, Department of Public Works Directors and their staff to provide updates and detailed information on major infrastructure upgrades, large construction projects, and city or county concerns. The staff meetings lead to updates provided at City Council or Board of Supervisor meetings on an as needed basis.
  - Communicate to customers in that local area when work is being done via letters, town hall meetings, and/or phone calls.
  - Presentations to San Mateo County CCAG board on topics such as Russell City interconnection project planned for November (originally scheduled for October and scheduled in November due to CPUC meeting with CCAG board). Other topics to be presented in the coming months include first responder training information, the Pipeline Safety Enhancement Plan, and Cornerstone
  - We have committed and are beginning outreach to cities and County on outage communication, to ensure the elected officials and city/town staff is aware of outages. Improvements and development include:
    - A list of key local PG&E contacts and phone numbers that will be provided to San Mateo communities, perhaps as part of the newsletter
    - An expanded notification list for each city in the event of an outage.
