Subject: High Low OFOs

Gurbux,

Just a heads up....Per our discussion, PG&E put out an article on our Pipe Ranger site indicating that we thought we would not need to do the daily high/low OFOs starting December 1 based on the pressure restorations we have been able to effect on our system. We don't expect to be calling the high/low OFOs for the next little while, but we may need them in the future along with the scheduling accommodation for generation related shippers we requested in our advice letter.

Below is the November Pipe Ranger article. We will probably confirm that we expect to be able to stop calling the daily high/low OFOs sometime this week.

http://www.pge.com/pipeline/news/20111104_1568_news.shtml

You or Richard should not hesitate to call me or Laura Doll if you have questions.

Best regards,

Jennifer
