Subject: Re: L132/Woodside site visit today

Thanks very much for all the help, and thanks, Ben, for meeting us out there.

Paul PG&E (as well as most of the media) are located at a park off of [Redacted]
[Redacted] The media folks suggest you conduct your interview at the park
location since KGO is already on site. The park is called [Redacted] Once
you exit the freeway you should go left and then you'll see the news vans. They
are expecting you there.

Ben, please meet Paul at this location.

Paul, Ben is currently en route to the site from Walnut Creek. He likely will
arrive there slightly after you, which I am hoping is ok -- gives you time to do the
interview? Ben's mobile is [Redacted]

Let us know if you need anything else.

Trina

I need to be back at the PUC by 2:30, so I need to come down earlier, more like 12:30.

Hi Paul,

Ben Campbell, who is the Director overseeing the 2011 Hydrotesting Program, can meet you at the Redacted hydrotest site this afternoon any time after 2:00. Will that work? Precise locational and logistical information to come in the next hour, including Ben's contact info, but I do want to give you a heads up that there's about 3/4 of a mile of walking involved to the site from the parking area that they have in mind. Let us know when would work. thanks,

Trina
