Matthew --

Sorry about that. I was out of town at the point I should have been following up with the team. I will send you some materials, probably tonight, and some one-pagers on programs tomorrow.

I hope you are well!

yours,

sid

Anything to share on this front? My talk is Thursday. So I can incorporate anything you send today or tomorrow.

Thanks.

Matthew --

Yes, I can get round materials up for you. Let me see what we have, then call you.

We are trying to get a date to invite you to pg&e for more of a briefing. I hope we can include our management meeting for new products, which I always find interesting.

I hope you are well!

yours,

sid

Do I seem terse? Blame the thumb keyboard.

Subject: IDSM

Hi Sid,

In early November I'll be participating in a panel on IDSM at the Efficiency Connections Northwest, a conference of NW utilities. I'd like to be able to speak knowledgably about PG&E's IDSM efforts, including (but not limited to) your reorg and pilots, which I believe include ZNE, Innovator Pilot, and Green Communities. Would it be possible for you to round up whatever resources you have on the subject? one-pagers, PUC filings, marketing materials, etc. Just want to get a sense of your efforts, funding levels, and how they're working.

I'm sure our neighbors to the north will be very glad to learn from your experience!

Thanks.

Matthew
