Subject:

John,

I want to alert you that I may attend the meeting that's scheduled tomorrow at 11 among PG&E, Marin Clean Energy and Energy Division staff to discuss implementation of the CIA for residential customers in case you or some other reg affairs staff would like to attend. I am concerned about PG&E's preparedness to smoothly transition to the CIA structure, as well as the resolution of other long-standing billing issues that have plagued MCE and their customers.
