Subject: RE: PG&E's Core Gas Supply Winter Weather, Market, and Supply Planning Update

All -

We have rescheduled this meeting to Friday, December 2nd (from November 30) to better accommodate DRA's schedule. We hope this works well for everyone else. We will send an Outlook schedule reminder to you today.

If you have any questions, please contact us.

Subject: PG&E's Core Gas Supply Winter Weather, Market, and Supply Planning Update

Good afternoon everyone,

We invite you to PG&E's offices for a market update and weather outlook meeting on Friday, December 2nd, at 9:30. We propose to replace our DRA - Dashboard Metrics conference call scheduled for November 28th, with an expanded in-person meeting including DRA, Energy Division and TURN, on the topics below. Please let me know your interest and availability by return email. If you prefer, we can meet at the CPUC offices. However, at 505 Van Ness, we would not have the benefit of Core Gas Supply's trading screens and real-time market information. We can also consider meeting dates in early December, although our calendars are rapidly filling up, and we would prefer to meet before then.

I look forward to hearing from you.

Thanks,
