Sepideh --

Here are two ways to look at the data -- below in the emails we have the totals for PG&E (note that this is with the current discount, not for the lower discount we are arguing for elsewhere), and in the attachment we have a per-space analysis. Let me know if you need more.

Thanks!

yours,

sid

Sid:

Here's the information from Keith, based on our estimate of about 80,000 gas MHP spaces and 88,000

electric. Thanks to Keith for assembling/confirming the data.

Stan -

Not sure what was in the original spreadsheet in your October 28 11:30 am e-mail.

But here's the approximate scoop on the total pot of annual MM Discounts going to the "customer," which is the population of gas and electric MHP owners/operators, using your 80K gas and 88K electric ballpark figures for number of tenant spaces --

**PG&E Mobile Home Park Master Meter Discounts**

	<u># of Spaces</u>	<u>Daily MM Discount</u>	<u>Annual Revenue</u>	
Gas	80,000	\$0.48200	\$14,084,040	
Electric	88,000	\$0.37925	\$12,189,854	

**TOTAL**      **\$26,273,894**

	<u>Monthly MM Discount</u>
Gas	\$14.67
Electric	\$11.54

So they are a bit easier to comprehend, I've shown the monthly value of the MM Discounts, but they are billed on a "daily" basis.

Thanks, Keith

Keith or Elaine, can you help with Sid's question?

He's looking for info on the total of MM discounts currently going to MHPs.

I'll get that when I'm back at the office, but it's on the order of 80k gas and 88k electric.

Stan --

Thanks. Do we have the total discount -- that is, this multiplied by the number of customers?

yours,

sid

Sid:

Here's the info for each of the (major) utilities, broken out by gas and electric. It does not have PG&E's current proposal, let me know if you'd like to see more data. PG&E's current electric discount is \$11.54/month/space, our proposed in Phase 2 of the GRC is \$2.40/month/space.

Stan
