Subject: Updates to 2/2/2011 information on planned pressure increases

Michelle

As we discussed by phone today, here's a copy of a letter PG&E sent last February 2 to Paul Clanon which discussed gas pipeline pressure reductions as well as a listing (Attachment B) of places where PG&E undertook "planned pressure increases" in previous years. We have recently identified some additional instances of planned pressure increases that were undertaken in November 2009 (shown in the Word document attached to this email). This information will be included in upcoming data requests for the Legal Division and we wanted to make sure you were aware of them.

Laura
