Subject: FW: Data Request for RPS PPAs

David and Merideth,

Maggie is out of the office and her out of office e-mail says to contact Suncheth Bhat. I requested awhile back for the following:

Energy Division requests that you submit the complete, unredacted power purchase agreement related to E-4181 Wadham PPA.

- The power purchase agreements should be e-mailed through the CPUC's FTP system (<https://cpucftp.cpuc.ca.gov>) to jnr@cpuc.ca.gov
- Each power purchase agreement should be one file.
- If possible the document should be word searchable.

I don't think the upload was successful. Can you please have someone upload the Wadham PPA by Wed so I can update the RPS Project Status table for December? Thanks.

Hi Maggie,

I logged into the FTP site and do not see the file. Can you please resend and re-upload?
Thanks.

Junaid

Per your request, I have submitted through the CPUC's FTP system the Wadham RPS contract.

Please let me know if you have any questions or did not receive the PPA I submitted.

Thank you,

Redacted

Subject: Data Request for RPS PPAs

David,

Energy Division receives regular requests from the public for RPS procurement data. Proactively providing public information will benefit the RPS program and will result in greater administrative efficiency for Energy Division and the utilities. According to the rules set forth in Decision (D.) 06-06-066, the Commission approved **Wadham RPS contract should now be available to the public. The Resolution approving this PPA is E-4181.** Please submit this data request to Junaid Rahman (jnr@cpuc.ca.gov) by COB Monday, September 19, 2011.

The California Public Utilities Commission (Commission) permits the confidential treatment of certain data and information related to utility filings seeking approval of RPS power purchase agreements (PPAs). In D.06-06-066, this Commission implemented Senate Bill (SB) No. 1488 (2004 Cal. Stats., Ch. 690 (Sept. 22, 2004)). D.06-06-066 established rules identifying what information should be considered public and for how long, to ensure meaningful public participation in our proceedings and open decision making, while taking account of our obligations under §§ 454.5(g) and 5831 to protect the confidentiality of certain information.

In D.06-06-066, this Commission adopted specific confidentiality rules for RPS procurement related information. Pursuant to D.06-06-066 and the decision's Appendix I "IOU Matrix", this Commission adopted a "window of confidentiality" for individual contracts for RPS energy or capacity. Specifically, this Commission determined that RPS contracts should be confidential for 3 years from the date the contract states that energy deliveries begin, except contracts between IOUs and their own affiliates, which should be public.

According to the and the rules set forth in D.06-06-066, the Wadham contract should be available to the public as of 7/1/2011. **Energy Division requests that you submit the complete, unredacted power purchase agreement related to E-4181 Wadham PPA.**

- The power purchase agreements should be e-mailed through the CPUC's FTP system (<https://cpucftp.cpuc.ca.gov>) to jnr@cpuc.ca.gov

- Each power purchase agreement should be one file.

- If possible the document should be word searchable.

If you have any questions or concerns, please feel free to contact me.

Thanks.
