### BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking on the Commission's Own Motion to Adopt New Safety and Reliability Regulations for Natural Gas Transmission and Distribution Pipelines and Related Ratemaking Mechanisms

R.11-02-019 (Filed February 24, 2011)

## PACIFIC GAS AND ELECTRIC COMPANY'S SUPPORTING INFORMATION FOR LIFTING OPERATING PRESSURE RESTRICTIONS ON LINES 101, 132A AND 147

### AMENDMENT TO PG&E SUPPORTING INFORMATION FILED OCTOBER 31, 2011

#### EXHIBIT B – LINE 101 SHORTS VOLUMES 1 AND 2 OF 3

Pursuant to Ordering Paragraph (OP) 4 of Decision (D.)11-09-006 and OPs 3-5 of D.11-10-010, on October 31, 2011, Pacific Gas and Electric Company (PG&E) submitted Supporting Information for lifting operating pressure restrictions on Lines 101, 132A, and 147. PG&E hereby submits a correction to Exhibit B – Line 101 Shorts, Volume 2 of 3, Pages B-1103 and B-1106.

PG&E's Supporting Information, consisting of twelve volumes of exhibits, contained certain detailed maps drawings and tables with sensitive information concerning the location of critical infrastructure, the disclosure of which could pose a public safety risk. Consequently, PG&E filed and served on the parties a redacted copy of these sensitive exhibits. At the same time, PG&E provided the Commission's Consumer Protection and Safety Division a confidential copy of the same exhibits pursuant to Public Utilities Code section 583.

In the course of reviewing the exhibits, PG&E discovered an error in one data line of the Maximum Allowable Operating Pressure (MAOP) Report regarding a tap line connected to Line 101 designated GCUST 5783. This MAOP Report appears in Exhibit B – Line 101 Shorts,

Volume 2 of 3, at pages B-1103 through B-1106. The correction, which is in the first line of data on page B-1103, was not completed in time to be included with the October 31 st filing. The change to one data line in page B-1103 does not change the MAOP Validation Summary Report for GCUST5783, however, with the change to page B-1103, the verifications that appear on page B-1106 were re-signed reflecting the new MAOP date – November 1, 2011.

Page B-1103 is confidential and is not included in the Supporting Information served on all parties. However, the corrected verification page (B-1106) is included in the redacted version of the Supporting Information and is attached hereto.

Respectfully submitted,

STEPHEN L. GARBER CHARLES R. LEWIS, IV
