Matt

Thanks for the info on Cmr Florio. Yes, we look forward to talking with you about CalSEIA and the other solar folk positions. When I was at the PUC last Friday I saw a pack of them on the fifth floor and assumed they were there to talk about this case. Have a Happy Thanksgiving.

Hi John. Just so you know, Cmr Florio will abstain from this item. However, I'm interested in the rate design questions raised by CalSEIA in this case and would appreciate hearing your perspective. My assistant Amy will follow up to lock down a date and time.
