**Subject:** Update on Candlestick Park Outage

PG&E Team:

Earlier today, PG&E's Chairman, CEO and President, Tony Earley, sent a letter to San Francisco 49ers President and CEO Jed York with an update on our investigation into the outages that affected Candlestick Park on Monday. In the letter, Tony outlined the cause of the initial outage, which took place before the start of the game, and reaffirmed our commitment to strengthening the reliability of our system serving the stadium.

The City and County of San Francisco provided a separate letter with the details of the second outage, which occurred during the second quarter.

Tony's letter to Jed York is attached here. You can also read about our response on [Currents](#).

PG&E will continue to coordinate with the City and County of San Francisco as the 49ers prepare for the playoffs.

Roger Frizzell

Vice President and Chief Communications Officer
