Scott --

I got your note and am getting the team together. I'll try to get it scheduled as early as possible in January.

Thanks!

Subject: residential rate design

Hi John,

I'd like to set up a meeting during the first half of January to discuss PG&E's view of peak-time rebate vs CPP for residential customers -- the sooner the better. Can you work with Cody to set up a time that works for me and Paul Phillips?

Thanks
