FYI

I talked with Stephen yesterday and he suggested that if/when it comes to for you to brief Cmr Florio on potential new economic development rates, they'd join the meeting. He purported that PG&E was fine with them joining any such meeting.

We are open to whatever you prefer. So I'm just putting this on your radar for now. When do you think your proposal will be coming about?

Hi Matthew

I understand you may be arranging a meeting with PG&E to discuss the options for the Enhanced Economic Development Schedule that the City of Fresno is seeking. PG&E alerted me to this as they would hope to keep the City on board with any discussions. I am happy to attend any time that is arranged and will have the authority to talk for the City.

Given where things now are with the PG&E GRC - I wonder if you have gotten to the stage of planning the first meeting yet.

Let me know if Mike and you are content to fold the City in, as PG&E anticipate - and as I would prefer - and can be available.

Meantime, you should know, the City and utility are, I think I can say, progressing towards a joint position in a positive fashion.

How you had a good Thanksgiving,

Stephen
