Subject: PG&E GRC Phase 2  
Bishu:

Thank you for taking the time to meet with us yesterday on the PG&E GRC Phase 2 proposed decision. In response to your questions, there are about 1400 customers that take master meter service for mobilehome parks. Those customers receive a discount for providing billing and distribution service to tenants. This discount, known as a "submeter discount", is the amount of the base discount, plus the line loss adjustment, less the diversity benefit adjustment. The net amount is about \$2.6 million annually based on the discount in the proposed decision.
