Marzia

Called at 10 and left you a voice mail. Since this is your first day back in the office you might be currently tied up. Email me back with a time that is more convenient for you.

Hi there
Let's talk this Thursday?

Marzia

On Dec 20, 2011, at 10:22 AM, "Hughes, John (Reg Rel)" <J8HS@pge.com> wrote:

Hi Marzia

Heard your voice mail and understand you are on vacation. When you get back on Thursday can you please call me. I have a few clarification questions such as

1. Does this apply only to pipes and wires or do we include

generation and energy supply assets

2. The word "Security " appears in a few areas. Are you referring to I T or something else?

3. How or where do the IRP or NTSB recommendations fit in?

Also I would like to discuss how this effort will fit in with our GRC. Our current plan is to tender our NOI for the 2014 General Rate Case in July with the intent of having the GRC application filed in November, 2012. So the timing of this effort is another area to explore.

You may be aware that as a compliance order from our 2011 GRC, PGE was required to file authorized budgeted amounts for 2011 with an explanation of any differences with what was assumed in the settlement agreement in the GRC. Also a Gas Distribution Pipeline Safety Report was filed in compliance with the same decision. If you need copies please let me know. Looking forward to talking with you. My office number is 415-973-3652 and my cell is Redacted
Thanks in advance.
