Subject: FW: Reorganization of Gas and Electric Safety Functions in CPSD

Commissioners and Directors- Please see my email below about changes in CPSD's organization.

Please let me or Julie Halligan know if you have any questions.

Thank you.

Subject: Reorganization of Gas and Electric Safety Functions in CPSD

Hello everyone- Over the last several years, CPSD has been working towards more specialization of its utility safety functions and with the recent increase in the number of gas utility engineers, we have decided it is time to officially restructure the Utility Safety and Reliability and the Electric Generation and Performance Branches into separate gas and electric functions. The result is that the old USRB and EGPB will become the Gas Safety and Reliability Branch and the Electric Safety and Reliability Branch. I have attached organization charts for the new branches.

The Electric Safety and Reliability Branch will be headed up by Program Manager Raffy Stepanian. The Electric Safety Section will be headed by Raymond Fugere and the Generator Safety and Reliability Section will be headed by Valerie Beck. Because Raffy currently has his hands full managing the San Bruno investigation, Valerie and Ray will take on some of the management duties for the new branch in the near term.

This week we expect to post a job bulletin to fill the Program Manager position for the Gas Safety and Reliability Branch. In the interim, Michael Roberston will serve as the Acting Program Manager. That leaves a void in Mike's Supervisor position. Sunil Shori will serve as Acting Program and Project Supervisor for the Gas Safety Section. Retired Annuitant Ken Koss will continue to assist with supervision for the new Risk Assessment and Enforcement Section. We have also released an RFP for a management audit of our gas safety functions, so the organizational structure will continue to evolve. (Link at <http://www.bidsync.com/DPX?ac=view&auc=1904470>)

I know that I speak for Julie when I say thank you to both Mike and Sunil for agreeing to take on these added responsibilities, to Valerie for ably serving as Acting PM of the old EGPB, to Raffy for being the task master for the San Bruno investigative report, and to all the staff throughout CPSD that have been working so hard on safety and consumer protection matters during very challenging times.

Please let me or Julie know if you have any questions.

Michelle Cooke, Interim Director

Consumer Protection and Safety Division
