Michelle, Valerie,

Today Valerie was forwarded all of the data responses from your spreadsheet. Just like your embarrassment, we have one too. We noticed that we have not yet answered CPUC_079 so we will be providing a response on this question next week.

Thanks to Red on our team to providing the other responses so quickly today.

Shilpa

Michelle, Valerie,

Sure, we'll get you a copy of the responses (and we all have our share of embarrassment from time to time). For a majority of the responses, we should be able to provide them by the end of the week. Subject to check, there may be a couple where we provided reams of electronic data that may take a couple more days to reproduce. I'll let you know which ones those are by Friday morning.

Take care.

Shilpa

Trina and Shilpa- this is embarrassing, but we are cleaning up our records and we have a list of data requests that we have logged and I'm sure we have responses from PG&E on because many of them have the PG&E reference number. Many are very old, from the beginning days of the San Bruno response last year before we really got our logging system going effectively (others aren't so old and I don't have any excuse there). Can I ask for an additional copy of what was sent in response to those request be provided to Valerie Malliett as soon as possible? If it will take more than a couple of days, please let me know when we can realistically expect a copy.

Many thanks.

Michelle
