Subject: FW: H-1111

FYI. First report from our field folks. It isn't helpful but as I find out more, I will let you know. Don't know if it is a switching problem on the 49ers side or ours.

We received reports that we lost the H-1111 at candlestick park and the ATS did not transfer. Contacted the owner to work with them on the ATS. DO reports that the power is back at this time cause unknown. We have an electrician on the way.

No report of any incidents at this time.

More to follow.
