Subject: PG&E HAN Implementation AL

Hello:

I am not quite sure whom to direct this to and so have cc'd several of you. I just wanted to give a heads up, while we are still reviewing the HAN filings, that I would likely be requesting a meeting soon with your team to discuss the details of the filing to clear up issues/questions or address perceived gaps. We will probably try for late next week or the following week. You may want to start your preparations in terms of a presentation that would walk us thru the filing and facilitate Q&A/discussions.

Please provide some input on your availability to help with scheduling. The team coming here should include enough breadth to address the issues re program/customer side as well as folks who speak to the implementation of architecture, IT, standards, etc. Thanks.

Alope Gupta
