**SUBJECT: Modifications to the Tariffs and Standard Contracts for the Purchase of Eligible Renewable Generation from Public Water and Wastewater Facilities and Small Renewable Generators.**

**PURPOSE**

As directed in the December 1, 2011, Commission Resolution E-4442, BVES modifies its Schedule No. RET ("Renewable Energy Tariff") and Form No.27, Renewable and Alternative Power-Public Water and Wastewater Agency Agreement., Appendix G ("Agreement") to include in both documents the adopted 2011 Market Price Referent (MPR) for the purchase of all energy produced by an eligible renewable generation facility.

**BACKGROUND**

Assembly Bill ("AB") 1969 approved on September 29, 2006, adds Section 399.20 to the Public Utilities ("PU") Code, which requires all electrical corporations to file with the California Public Utilities Commission ("Commission") a standard tariff to provide for payment for every kilowatt-hour of renewable energy output produced at an electric generation facility at the market price as determined by the Commission pursuant to PU Code Section 399.15 for a period of 10, 15 or 20 years.

For purposes of Section 399.20, the electric generation facility eligible for service on the new tariff must be an eligible renewable energy resource owned and operated by a public water or wastewater agency that is a retail customer of BVES, interconnected and operated in parallel with BVES' distribution system and be sized to offset part or all of the electricity demand of the public agency.

Decision ("D") 07-07-027 ordered that the new tariff and agreement are to be made available upon request on a first-come-first-served basis to eligible facilities with an effective capacity of not more than 1.0 megawatt until BVES' contracted capacity reaches its proportionate share of the statewide 500 MW limit. The allocation will be based on the ratio of BVES' coincident demand to the total statewide peak demand of all electrical corporations.

Pursuant to D.07-07-027, BVES filed Advice Letter 219-E on August 13, 2007 to establish the new tariff Schedule No. RET applicable to eligible renewable energy resources owned and operated by a Public Water and Wastewater Agencies that are retail customers of BVES, interconnected and operated in parallel with BVES' distribution system and be sized to offset part or all of the electricity demand of the public agency. Advice Letter 219-E also proposed to establish a new Agreement (Form 27) to implement the tariff for qualified renewable facilities. On July 30, 2008, BVES filed Supplemental Advice Letter 219-EA to modify the language in Appendix of the

Agreement to bring it in conformance with D.07-07-027. However, as noted by Commission staff, Advice Letter 219-EA did not address the directives of Resolution E-4137.

In December 2009, Commission staff directs BVES to withdraw Advice Letters 219-E and 219-EA, and to submit updated Schedule No. RET and Agreement within 5 days of Commission's approval of Resolution E-4298. The updated documents must modify the language associated with the Agreement standard terms and conditions as required by D.08-04-009, remove any references to a size limitation beyond the 1 MW limit set by D.07-07-027, and add the adopted 2009 MPR for short term and long term renewable energy contracts. In December 29, 2009, BVES filed Advice Letter 236-EA to modify Advice Letter 236-E as a result of the Commission staff review. Advice letter 236-EA modifies the language in Appendix C of the Agreement to include the required "Change in Law" provision of the Standard Term and Conditions (STC) 6 – Eligibility, as ordered in D.08-04-099.

No cost information is required for this advice filing.

This advice letter filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

Schedule No. RET

WATER AGENCY RENEWABLE ENERGY SERVICE

APPLICABILITY<sup>1</sup>

This Schedule is optional for customers who meet the definition of an Eligible Public Water Agency or Wastewater Agency, as defined in the Special Condition section of this Schedule, who own and operate an Eligible Renewable Generating Facility, as defined in the Special Condition section of this Schedule, and is located on property owned or under the control of the public water or wastewater agency. Service under this Schedule is on a first-come-first-served basis and shall be closed to new customers once the combined rated generating capacity of Eligible Renewable Generating Facilities within BVES' service territory reaches 500 KW in accordance with Special Condition 5. However, BVES may, at its sole option, determine whether a viable project exists that is able to take service under this tariff which would benefit all of BVES' customers. Should BVES make such determination, BVES may agree, on a case by case basis, to exceed its 500 KW limit and permit such customer to take service under this tariff.

TERRITORY

Within the entire territory served.

RATES

The customer's otherwise applicable tariff (OAT) shall apply except as follows: BVES shall purchase the total output produced by an Eligible Renewable Generating Facility at the price shown below and pursuant to the terms set forth in Section 6.2 of the **Renewable and Alternative Power-Public Water And Wastewater Agency Agreement** (Form No. 27).

<sup>1</sup> NOTE: Pub. Util. Code Section 399.2 among other things requires qualifying projects to be "strategically located and interconnected to the electric transmission system in a manner that optimizes the deliverability of electricity generated at the facility to load centers." Pub. Util. Code § 399.20 (b)(3), as amended by Ch. 544. Since BVES does not have electric transmission within its service territory, BVES believes that Section 399.20 does not apply to BVES.

SPECIAL CONDITIONS

1. Required Contract: An executed Agreement (Form No. 27) is required prior to receiving service under this Schedule.
2. Participation in other BVES Programs: Participating customers with multiple generators may not participate in any other BVES interruptible or net energy metering programs, unless sufficient BVES metering is in place to isolate the output of the Eligible Renewable Generating Facility from the output of any non-participating generator for purposes of applying this Schedule.
3. Definitions: The following definitions are applicable to service provided under this Schedule.
  - a. Eligible Wastewater Agency – Any state, local, or federal agency, as defined in Water Code Section 13625 (a)(1), owning a facility used in the treatment or reclamation of sewage or industrial wastes.
  - b. Eligible Public Water Agency – As defined in Water Code Section 12970, means any public corporation, district, political subdivision, or any other agency or authority now or hereafter organized under the laws of this state which develops, stores, distributes or supplies water.

WATER AGENCY RENEWABLE ENERGY SERVICE

c. Eligible Renewable Generating Facility – A generating facility that is owned and operated by an Eligible Public Water Agency or an Eligible Wastewater Agency which receives distribution service from BVES, and where the Eligible Renewable Generating Facility meets all of the following criteria:

- (1) Is located on property owned by or under the control of the public water or wastewater agency.
- (2) Is interconnected and operates in parallel with the electric distribution grid.
- (3) Is strategically located and interconnected to the electric distribution system in a manner that optimizes the deliverability of electricity generated at the facility to load centers.
- (4) Is an eligible renewable energy resource, as defined in Public Utilities Code Section 399.12.

4. Metering Requirements: Customers served on this Schedule shall be separately metered with BVES metering to reflect the net generation output amounts of the Eligible Renewable Generating Facility. Customers shall be responsible for all costs associated with separately metering the customer's Eligible Renewable Generating Facility output and associated station load. All metering required for service on this Schedule shall be installed and maintained in accordance with BVES requirements.
5. Customer Participation: Except as provided below, customers may participate in accordance with this Schedule until the sum of all customers' contracted capacity reaches BVES' proportionate share of 500 MW as provided in the ALJs Ruling in Rulemaking 08-08-009 issued November 18, 2008 and in D.07-07-027. This amount will be calculated by the summation of all net power ratings (in kW) provided in Section 2.4 of Form No. 27. Should additional customers express interest in this Schedule after the BVES' share of the contract capacity limit is reached, BVE will maintain a list of interested customers, ranked in order of the date on which they requested service under this Schedule. Should the capacity installed fall below BVES' share, BVES will allow those customers from the previously described list of interested customers who remain interested in the tariff the opportunity to participate under this Schedule on a first come first serve basis until the amount installed and operating capacity plus the contracted capacity taken from the previously described list of interested customers equals BVES' share of the 500 MW. This process will continue until such time, if any, as the installed capacity of projects in operation equals BVES' allocated share.

- 6.5 For the purpose of calculating monthly payments, the amount measured by the NGOM shall be time differentiated according to the time period and season of the receipt of Product by BVES from Producer ("TOU Periods") and the pricing shall be weighted by the Energy Allocation Factors set forth in Appendix F.

As set forth in Appendix F, TOU Periods for both the winter and summer seasons shall include on-peak, mid-peak, off-peak periods.

The monthly payment shall equal the sum of the monthly TOU Period payments for all TOU Periods in the month. Each monthly TOU Period payment shall be calculated pursuant to the following formula, where "n" is the TOU Period being calculated:

$$\text{TOU PERIOD PAYMENT} = A \times B \times C$$

Where:

- A = Product Price specified in Appendix G in \$/kWh.
- B = Energy Allocation Factor, set forth in Appendix F, for the TOU Period being calculated.
- C = The sum of energy recorded by the NGOM in all hours for the TOU Period being calculated in kWh.

- 6.6 BVES shall adjust the energy and demand amounts recorded by the BVES billing meter at the Point of Common Coupling, as defined in BVES's Rule 21, to reflect the net generation output amounts measured by the NGOM for purposes of billing the Producer in accordance with BVES's applicable Tariff rate schedule(s).
- 6.7 BVES shall determine the amount of energy received by BVES pursuant to this Agreement for each billing period and provide a statement to Producer within thirty (30) days after each meter reading date.
- 6.8 BVES shall not be obligated to issue a payment to Producer until the amount due for the energy received pursuant to this Agreement exceeds one thousand dollars (\$1,000), except that BVES shall pay all amounts due to Producer pursuant to this Agreement at least once per calendar year no later than 30 days after the end of the calendar year.
- 6.9 Unless otherwise agreed in writing by the Parties, any payment due for Product received under this Agreement shall be satisfied by BVES issuing a check to Producer. Alternatively, BVES reserves the right, but shall not be obligated to apply any amount owed to Producer toward any amounts due to BVES from Producer for any charges incurred under this Agreement or for past due bills for electric service or for BVES services.
- 6.10 In the event adjustments to BVES's payments are required as a result of inaccurate metering equipment, BVES shall determine the correct amount of energy received under this Agreement during the period of inaccuracy and recompute the amount due to or from Producer. Any refund due and payable to BVES or due by BVES to Producer resulting from inaccurate metering shall be made within thirty (30) calendar days of BVES's Notice to Producer by BVES of the amount due.
- 6.11 Monthly charges, if any, associated with Interconnection Facilities shall be billed and paid pursuant to the applicable Generating Facility Interconnection and Export Agreement in Appendix B and monthly charges, if any, associated with electric service provided by BVES shall be billed and paid pursuant to the applicable Tariffs filed by BVES with the Commission.

## 7. INTERCONNECTION FACILITIES

- 7.3 If the provisions of BVES's Rule 21, or any other Tariff approved by the Commission, require BVES to own and operate a portion of the Interconnection Facilities, Producer and BVES shall promptly execute a Special Facilities Agreement that establishes and allocates responsibility for the design, installation, operation, maintenance, and ownership of the Interconnection Facilities. This agreement shall be attached to and made a part of this Agreement as Appendix B.

## 8. LIMITATION OF LIABILITY

Each Party's liability to the other Party for any loss, cost, claim, injury, liability, or expense, including reasonable attorney's fees, relating to or arising from any act or omission in its performance of this Agreement, shall be limited to the amount of direct damage actually incurred. In no event shall either Party be liable to the other Party for any indirect, special, consequential, or punitive damages of any kind whatsoever.

## 9. INSURANCE

- 9.1 In connection with Producer's performance of its duties and obligations under this Agreement, Producer shall maintain, during the term of this Agreement, general liability insurance with a combined single limit of not less than:
- (a) Two million dollars (\$2,000,000) for each occurrence if the Gross Power Rating of Producer's Facility is greater than one hundred (100) kW;

**APPENDIX A**

**DESCRIPTION OF RENEWABLE AND NON-RENEWABLE GENERATING FACILITY  
AND SINGLE-LINE DIAGRAM**

(Provided by Producer)

**APPENDIX B**  
(If Applicable)

**SPECIAL FACILITIES AGREEMENT**  
(Provided by BVES)

**APPENDIX C**

(Generating Facilities in service after January 1, 2002)

**PRODUCER'S WARRANTY THAT THE RENEWABLE GENERATING FACILITY  
IS AND WILL CONTINUE TO BE AN  
"ELIGIBLE RENEWABLE RESOURCE" PURSUANT TO SECTION 399.11 et seq. OF THE  
CALIFORNIA PUBLIC UTILITIES CODE ("ERR Warranty")**

For the purpose of selling power produced by the Generating Facility pursuant to Assembly Bill 1969, under Section 399.20 et seq. of the California Public Utilities Code, Producer hereby declares that the Renewable Generating Facility complies with the requirements for "Eligible Renewable Resource" as such term is used in Section 399.11 et seq. of the California Public Utilities Code ("ERR Requirements").

Producer warrants that, beginning on the date of Actual Initial Operation and continuing throughout the Term of this Agreement, its Renewable Generating Facility shall continue to comply with the ERR Requirements. If Producer becomes aware that the Renewable Generating Facility has ceased to comply with the ERR Requirements, Producer shall promptly provide BVES with Notice of such change pursuant to Section 10 of the Agreement. If at any time during the Term of this Agreement BVES determines in its reasonable discretion that Producer's Renewable Generating Facility may no longer comply with the ERR Requirements, or RPS Requirements, BVES may require Producer to provide evidence that the Renewable Generating Facility continues to comply with the ERR Requirements and RPS Requirements, within 15 business days of BVES's Notice requesting such evidence. Additionally, BVES may periodically (typically, once per year) inspect Producer's Renewable Generating Facility and/or require documentation from Producer to monitor the Renewable Generating Facility's compliance with the ERR Requirements and RPS Requirements. If BVES determines in its reasonable judgment that Producer either failed to provide evidence in a timely manner or that it provided insufficient evidence that its Renewable Generating Facility continues to comply with the ERR Requirements or RPS Requirements, then the Eligible Renewable Resource Status (the "ERR Status") of the Renewable Generating Facility shall be deemed ineffective until such time as Producer again demonstrates to BVES's reasonable satisfaction that the Renewable Generating Facility complies with the requirements for a Eligible Renewable Resource Generation Facility (the "ERR/RPS Status Change").

BVES shall revise its records and the administration of this Agreement to reflect the ERR Status Change and provide Notice to Producer of the ERR/RPS Status Change pursuant to Section 10 of this Agreement. Such Notice shall specify the effective date of the ERR/RPS Status Change. This date shall be the first day of the calendar month for which BVES determines in its sole discretion that the Renewable Generating Facility first ceased to comply with the ERR Requirements and RPS Requirements. BVES's Notice shall include an invoice for the refund of payments that were made to Producer during the period between the effective date of the ERR/RPS Status Change and the date of the last Notice in reliance upon Producer's representations that the Renewable Generating Facility complied with the ERR Requirements and therefore was eligible to sell power to BVES as a result of satisfying the ERR Requirements.

*Producer, and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement that: (i) the Generating Facility qualifies and is certified by the CEC as an ERR as such term is defined in Public Utilities Code Section 399.12 or Section 399.16; and (ii) the Generating Facility output delivered to BVES qualifies under the requirements of the California Renewables Portfolio Standard. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Producer has used commercially reasonable efforts to comply with such change in law.*

During the period when the ERR Status is deemed to be ineffective, BVES shall not pay Producer for Product.

Any amounts to be paid or refunded by Producer, as may be invoiced by BVES pursuant to the terms of this ERR Warranty, shall be paid to BVES within 30 days of Producer's receipt of such invoice.
