Hi Gurbux: There was only one electric rate change in 2011 (not counting 1/1/11) implementing revenue requirement changes. That change occurred on March 1, 2011. I have attached the Advice Letter for that change. Please let me know if this does not address your concerns. Red

Re, do you have the total (and the break down) of all revenue requirement changes the Commission authorized since Jan1, 2011? This does not include changes authorized by the Commission in December, 2010, but implemented this year. A commissioner has asked for it and wants it before the end of the day today. Thanks
