Well I like the 2:30 slot -- just waiting to hear back from Ben. He is one of our busiest people -- so busy I haven't heard back from him yet!

If 2:30 doesn't work, we can also do 4:30.

Hi Laura,

Can we move the meeting to 2:30 instead of 4?

OK, we have liftoff!
Ben Campbell and I will be there, and perhaps someone else but I'm not sure yet.
This will be great.

Hi Laura,

How about 4pm on Friday the 3rd?

Scott

Just checking to see whether you know anything more re schedule. Our hydrotest guy, Ben Campbell, also has a really tight schedule and works out of Walnut Creek, so I want to give him as much lead time as possible.

Thanks!
Laura

Hi Laura,

Let me see if we can squeeze you in. I'll let you know.

Scott

Bishu and I have been talking about a different approach to this. Instead of a trip to the hydrotest site, which the Commissioner cannot do anytime soon, could we schedule a briefing with our lead hydrotest guy, Ben Campbell, some time before Commissioner Simon goes to the NARUC meeting?

Do you have any options next week?

Thanks

I'm sorry but Commissioner Simon has a prior obligation that day. He's pretty much booked until late February.

Thanks for checking! I believe this is the only opportunity before NARUC.

Scott--please respond...I don't think so but I'm not in the office and don't have his calendar in front of me.

Phyllis

The test will be Jan 24 for sure.
Can the Commissioner make that?
Laura

Phyllis and Bishu

The hydrotest on line T119 NOW is going to occur on either January 21 or 23. In other words, it will NOT occur on Jan 17 as I previously communicated. These tests are complicated and require lots of approvals and clearances and so it had to change by a few days.

We expect to know the final, hard test date by the end of this week and will get back to you with that asap.

Thanks
Laura
