Subject: RE: Missing Maps

Shilpa- just confirming that all the info from prior spreadsheet is needed. In terms of the priority, we need Plats, Jobs/Plat, Dates Job went into service, # services, # services per year, if that helps.

Thanks, that's fine. And it's 84 maps total, 69 incremental to the 15 already identified. Not sure how many services or how old yet.

Shilpa- I will look at this the morning, I'm operating on the blackberry at the moment and I need to pull up the table I used when I was reviewing. Will follow up in the morning.

Thanks
Michelle

Subject: Missing Maps

Michelle,

We'll be notifying you officially tomorrow about more maps with missed leak surveys, to be confirmed but currently 84. This was a result of our system-wide check. Can we talk about which columns in the attached doc we submitted after the Dec 30 report are useful? Our folks said it took a couple engineers a couple days to put this together, and want to know that you really care about all the same data or just some of it before we assemble for the next ~84.

Shilpa
