Hello all:

We can use PG&E's unless the CPUC would prefer to use its own number.

Is it possible to get a call in number so that we at Noble can participate?

Suzanne

Subject: RE: PG&E - MEA Issues List

Dawn,

If I understand the first issue correctly, and if PG&E is clearly at fault, then I strongly urge PG&E to use all available means to contact these 2,500 customers and explain that this incident is due to PG&E's error. I would also ask that if any of the affected customers contact PG&E to inquire about returning to PG&E service that the customer service reps be instructed to explain the cause of the error.

If possible, I would like to attend the first meeting between MEA and PG&E that is scheduled following the issuance of PG&E's proposals for resolving all outstanding issues on the 16th, and I want to have the PUC host it. Dawn and Jennifer, can you work with Carlos to find a time that works for me and any members of Energy Division staff and management who wish to attend?
