Subject: FW: Pipeline Safety Spreadsheet

I got it and failed to forward it. My bad.

Subject: Pipeline Safety Spreadsheet

All -

In response to internal inquiries regarding a detailed summary of the recently-passed federal pipeline safety legislation (H.R. 2845) and other related recommendations, please find attached a table summarizing key aspects of: 1) H.R. 2845, now awaiting the President's signature; 2) NTSB's Pipeline Accident Report - Recommendations to PG&E; and 3) PG&E's Pipeline Safety Enhancement

Plan.

As you're aware and as I understand, PG&E is working to satisfy NTSB recommendations and will submit an update later this week outlining our progress to Chairman Hersman. Once this document has been finalized by Nick's team and sent off, the federal affairs team would be happy to incorporate this information into the attached spreadsheet.

In the meantime, please let us know if you have any comments, questions or thoughts to build upon this document.

Brian - Of course, please feel free to share whatever you believe is most appropriate with your colleagues at CPUC.

Thanks.
