Subject: Presentation Materials for Joint PAC Meeting - 1/9/2012

Welcome to 2012, I hope everyone enjoyed their holidays and are sticking to your resolutions at least until after our meeting on January 9th from 1:00 to 2:00 pm PST.

I will be trying out the Go To Meeting technology used here at GTI for our conference call which allows everyone to use their respective PC and the associated speaker/microphone system for the meeting while being able to see what is on my screen. It has worked successfully to-date and should provide a favorable medium for our meeting. You will be receiving this invitation separately.

I have attached 2 items we will be using during our conference call. The first is the PowerPoint presentation based on the agenda I had circulated in December. The second is an example of the template we are proposing to use to create the catalogue of technologies that will be included in the report. In both cases my goal is to familiarize the PAC to the format and content we are developing and to obtain concurrence on the approach.

Thanks for your time, I'll talk with you on the 9th.

Best regards,

Jim
